A PERFORMER'S BODY IS AN INSTRUMENT!

THE NEW ORLEANS MUSICIANS' CLINIC & ASSISTANCE FOUNDATION KEEPS THEM IN TUNE!

Your support makes New Orleans performers healthier, stronger, and more resilient.

"If musicians are sick, they can't gig. It's as simple as that. You want to keep the music alive? You have to keep the performers healthy. I've managed music clubs in New Orleans for decades, I'm a musician myself, and there is no other entity doing the type of work with as much heart than the New Orleans Musicians' Clinic. I'm proud to be a donor, they keep the jazz city swinging."

"On June 23, 2011, a few words changed my life forever: "Mrs. Nelson, you have cancer." The support from the NOMC&AF added light to my healing journey as I made a vow to approach my diagnosis as "Shallow Water" - or something I would walk and dance through with dignity. Their community health team regularly checked in on me and coordinated low-cost medication and free physical therapy. Cancer changed my life, supporters of the NOMC kept my music alive."

"The NOMC services have been a true lifeline for me and many of my fellow musicians. Whether one needs speciality care or preventive checkups, the clinic is there to help, from hearing tests to vaccinations to hand-holding."
