When the original *Get You a Healin'* CD released locally just over a decade ago, NOMC was starting out and wanting to growing local awareness and support for musicians' health care and well being. Since then, New Orleans musicians and the community have definitely needed a healin'. And they're doing it for themselves by donating music to the NOMC for this Special Anniversary digital only Re-Release.

This digital CD is a tribute to New Orleans uniquely known style of mixing R&B, Jazz, Funk, and Blues. It's easy to get caught up in the good times when the music brings a smile to your face and dip in your hip. *Get You a Healin'* offers the same with a health-related theme throughout *including 10 new bonus tracks from national recording artists such as B.B. King, Christine Ohlman (Saturday Night Live Band), Sonia Dada and locals alike who appreciate what the clinic has done for New Orleans musicians by keeping the music alive!*

Please help promote this digital release on your web sites, Facebook, MySpace and blogs. The federal funding cutbacks don't have to prevent the NOMC from keeping musicians healthy. All funding from this project will continue health care and assistance funding for New Orleans Musicians' Clinic and Assistance Foundation.
