Big Queen Cherice during her cancer treatment. A special NOMC donor funded occupational therapies to ensure that her breast cancer treatment would not impact her ability to perform.

Photo Credit: Evelyn Rodos

A signed copy of Big Queen Cherice's Guardians poster will be given to each \$50 donor to the breast cancer walk.

NOMC offers specialized occupational therapies under the auspices of the International Performance Medicine Association for all our patients undergoing care for breast cancer to ensure they can continue with their careers.

Did you know that Louisiana has
the highest rate of death from
breast cancer in the USA?

AND only 40% of eligible
Medicaid women in La.
are screened?

NOMC in partnership with the St. Thomas
Clinic offers free, annual mammograms for all
our female patients in the at risk groups.

Go to the [Louisiana Department of Health and Hospitals](#)
or the [CDC](#) for more information.

New Orleans Musicians' Clinic
