In the spirit of promoting a healthy music environment, Martin Guitar, EarPeace, Ace Hotel New Orleans, and the New Orleans Musicians' Clinic are uniting for An Evening with Save Sounds.

Ace Hotel New Orleans' music venue Three Keys celebrates a newly-added sound abatement system where singer-storyteller **Paul Sanchez** will perform a solo voice/guitar set, followed by one of the Musicians' Clinic's first patients, **Little Freddie King**, who will perform with his four-piece blues band.

DID YOU KNOW?

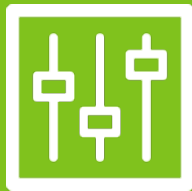

1 out of every 8 people between the ages 18 - 67 in the USA has some level of hearing loss.

Hearing loss from noise exposure is preventable! Avoid damage to your hearing by following these tips from our **Save Sounds** experts:

1. EARPLUGS

Wear protective earplugs when you can't control the volume! We love these [high fidelity ear plugs EarPeace](#), who just donated 300 pair for the [Ace Hotel benefit for NOMC on October 23!](#)

2. GET CHECKED

Hearing tests aren't just for school kids! Visit an audiologist yearly. [New Orleans Speech and Hearing Center](#) provides testing and evaluation for NOMC patients and community members.

1. BE AWARE

Did you know that noisy restaurant can be as tough on your ears as the jets on an airplane? [Checkout our staff picks and download a decibel app](#) on your smart phone and keep track.

Visit our website for more information on hearing loss prevention!
