COVID-19 SYMPTOMS

Coronavirus (COVID-19) is a contagious respiratory illness caused by a virus. It can cause mild to severe illness, and at times can lead to death. Patients with COVID-19 have a wider range of symptoms than previously thought by medical professionals. According to the newest Center for Disease Control (CDC) COVID-19 symptoms, you should get tested and call your medical provider, if you experience any of the following:

FEVER ABOVE
100.4 DEGREES

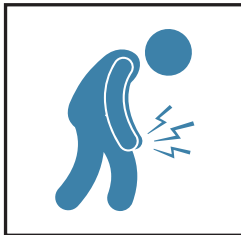

COUGH

SORE THROAT

CHILLS OR REPEATED
SHAKING WITH CHILLS

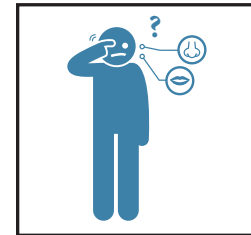

MUSCLE PAIN

HEADACHE

SHORTNESS OF BREATH /
DIFFICULTY BREATHING

SUDDEN/NEW LOSS
OF TASTE OR SMELL

EMERGENCY WARNING SIGNS: If you have fever equal to or above 102 degrees and chronic conditions such as diabetes, cardiac disease, asthma, etc., call 911 or go to the Emergency Room.
